

31 FSS

U pick'em... U win!

(and we don't have to
do much!)

Second Street Media sets up & runs the site.
We provide website graphics.

They implement & we link to their contest
page for our Squadron.

Site can be up & running **within hours** of
being sent graphics.

Their computer does all the calculating & we
notify the winner each week.

How does the game work?

You pick who you think is going to win each game of the season.

When is the deadline to enter my picks?

You can pick the winner up to 15 minutes before the game is scheduled to start.

What if I don't pick a winner for a game?

If you don't pick the computer will select the most picked teams for you.

(Can't win that week)

The season has already started. Can I still play?

Yes. Your picks going forward will be counted toward your score. **We throw out your 4 worst weeks** so the top 17 weeks count toward your overall score. If you start before week 5 you'll be fine. If you start after week 5 you'll be behind the others in terms of the overall season, but you could still win a prize (if offered) for an individual week. You have to pick at least 11 of the 21 weeks yourself (just over half) to be eligible for an overall prize.

How are ties broken?

The program will compute a winner based on game scores.

How old do I have to be to play?

18 Years or older, sorry kiddoes!

Register & then make your picks!

Pro Football Regular Season Survivor Game

-- Select a Team --

Pick the team you are sure will win:

If you pick correctly, you'll advance to the next week. However, the only catch is that in future weeks, you can't pick the same team again. If you're wrong you'll still be in the pick'em game above, but you're out of this game for the season.
